cure

It took 15 years, but I finally created the cure. Then I had to find someone to play with. I made my decision; I will heal First Name of a Person. I walked all over town, and I Adverb found him in a dark alley way. I grabbed my five inch long needle, stabbed him with it, and hoped it worked. It did, and First Name of a Person was cured. I told him about robotitis, and about the cure I had created.

It took Number more years, Conjunction we finally Verb - Past Tense every single person in the USA, then I realized a problem, the disease was in every country in the world. Noun and I went to a dusty, grimy, old army Location in the central US. Pronoun was the one that had to ask him if we could use planes to dump the cure on the other countries, but when I got up to him, he was interjection ! I was terrified, but then I realized that it was a Adjective skeleton.
