The Water

There are ants in my pocket from lying on the floor. I have been watching these two kids for the past 2 hours. A couple years ago the FBI recruited me because of my select skills. My very Adjective talent is controlling water around me. This is why I always sling a ginormous water pouch around with me. I can shape water into whatever shape or size I want too, and I can even freeze it. These two kids that have been confirmed to be part of ISIS are my target. My job is to capture them no matter the cost. I jump up and attack and all I can hear are screams.
