# when i was your man

Same           Noun           but it feels just a little bit           Adjective           now

Our           Noun           on the radio but it don't           Verb - Base Form           the same

When our           call people           talk about you, all it does is just           Verb - Base Form           me down

'Cause my           body part           breaks a           Adjective           when I hear your name

It all just sounds like ooooooh...

Mmm, too           Adjective          , too           Adjective           to realize

That I should've bought you           Noun          

And held your           body part          

Should've gave you all my           Noun          

When I had the chance

Take you to every           event          

'Cause all you wanted to do was           Verb - Base Form          

Now my           call people                     same verb          

But she's           same verb           with another           call people          

My           Noun          , my           Noun          , my           Noun          , and my selfish ways

Caused a good           Adjective           woman like you to           Verb - Base Form           out my life

Now

I never, never get to \_\_\_\_\_ Verb - Base Form \_\_\_\_\_ up the mess I made, ohh...

And it haunts me every time I close my \_\_\_\_\_ body part \_\_\_\_\_
