Let's get some history learning going

Mesopotamia was organized in independent city-states that did not belong to a Adjective Adjective Noun. Its citizens belonged to their neighborhood or Noun; they were also part of a Noun Noun. The Noun was regionally controlled. Proper Noun only ruled in their own Noun - Plural. The king was called Adjective ("big man") and was chosen to lead Noun - Plural in times of war based on his ability at times of peace to lead and affirm authority. City-states were often at war with one another in order to Verb their sphere of influence and to Verb natural resources for its Noun - Plural.
