Dear [\_\_\_\_\_consultants name\_\_\_\_\_ ]

I would like to invest [higher dollar value] at a rate of [rate between 5-7%], but I also have the opportunity to invest [lower dollar value] at a rate of [rate between 8-10%]. Can you please show me what both would look after [number] years so that I can make an informed decision? I would like to see the math formulas AND a graph for each so that I can really see the difference.

Best regards,

[client's name]

P.S. Did you hear about [name] and her [noun]?! What a [adjective] [noun]!
