1. Noun
2. Noun

# Opportunities

\_\_\_\_\_ Noun is not just another extracurricular activity for me, it was the mainstay of my high school career. Through \_\_\_\_\_ Noun, I had the opportunity to develop my leadership and public speaking skills, gain self-confidence, participate in career development events, and create a peer network. Because of all these things that the FFA taught me, I took it upon myself as a personal obligation to give back to an organization that has given me more than I could ever have imagined. I decided my senior year of high school that I was going to run for state office, and I am very blessed to say I was elected to the ND State Treasurer position. I hope to further develop my leadership skills and connect with other members from across the state, who share my love of agriculture, as well as provide members with the same amazing experience that I have fortunately acquired. However, with state office I have had to give up many things, including a job, since the year is so busy. Thank you for your consideration.
