## **Master & Servant**

A young woman just bought a large She was very and loved how big it was.
She thinks that big houses means that there is more stuff to do since you can put more in them.
She filled up the house with all her and was very Adjective for a long time. About
years later, she started to feel because she had no one to be with and to share
everything she had. So she thought a couple of times until she thought of something that could
help her. She thought that she is still rich, and could use some a lot. So what is better to than
having a? The woman hired a noun - Same as the last one and taught her the many ways of how
to act like on in her The servant called the woman Master, and the woman called the servant
servant. The servant lived with the master in a room the master had. The servant would do
whatever the Master says, and the Master wasbecause she had
