# My Story of Cvent Success!

My name is \_\_\_\_\_<sup>Name</sup> and I'm a Cvent User! I work hard and get results for my organization. After I send my Invitation Email, my Invitees begin the registration process by entering their First Name, Last Name, and Email Address on the Identity Confirmation page and their \_\_\_\_\_<sup>Type</sup> \_\_\_\_\_<sup>Type</sup> (if I let them pick it themselves). Then they enter information into the Contact Fields that I list as visible or required on the Contact Fields tab of my Registration Settings. Sometimes, if I need to collect extra information specific to my Organization's needs, I utilize \_\_\_\_\_<sup>Type of Custom Field</sup> \_\_\_\_\_<sup>Type of Custom Field</sup> \_\_\_\_\_<sup>Type of Custom Field</sup> that I've configured in my account and can easily add on the same tab in Registration Settings. An example of something my organization may use a Custom Contact Field for would be \_\_\_\_\_<sup>Blank</sup>. On this same page, or on the next page if I prefer, I can ask them some \_\_\_\_\_<sup>Blank</sup> \_\_\_\_\_<sup>Blank</sup>. A great example of a Registration Question that my organization might ask is \_\_\_\_\_<sup>Blank</sup> \_\_\_\_\_<sup>Blank</sup> \_\_\_\_\_<sup>Blank</sup> \_\_\_\_\_<sup>Blank</sup> \_\_\_\_\_<sup>Blank</sup>? If I'm going to use this in a few events, I might even add it to my library!

After this page, they begin Item Selection by clicking next. Here's where they select their ticket to my event, also known as the \_\_\_\_\_<sup>Agenda Item</sup> \_\_\_\_\_<sup>Agenda Item</sup>. They can pick some \_\_\_\_\_<sup>Agenda Item</sup> along the way too ! If I only want to select one that occur at the same time, I might look at the option of creating a \_\_\_\_\_<sup>Agenda Item</sup> \_\_\_\_\_<sup>Item</sup> \_\_\_\_\_<sup>Agenda Item</sup> to limit this.

Click Next, and if I have no fees the Registration Summary page will be the very last part of a simple event setup

!

All of my Registrants will be stored in my event in Invitee Management if I go to Place to find Invitees in your

Event & Place to find Invitees in your Event. I can view their Contact History by going to my Place to

find Invitees in your Account Place to find Invitees in your Account.
