Nor'easter

NEW YORK, N.Y A Adjective, Adjective, late-season storm lashed the Northeast with sleet
and more than a foot of snow in some places Tuesday. The storm paralyzed much of the East Coast from
Washington D.C. to Boston after a
worst of winter was over.
The powerful nor'easter that is, a storm that blows from the Northeast grounded
Adjective flights. It knocked out power to around 200,000 customers from Virginia northward, closed
schools in cities and Adjective and prompted warnings to stay off the
roads.
As the morning wore on, the storm's path shifted and snow switched to sleet in Philadelphia and
New York. That prompted forecasters to lift blizzard warnings for the two cities and cut their
prediction of a foot or more of snow by over half.
But residents farther inland from the coasts got clobbered. Towns along Pennsylvania's northern tier had
Adverb 16 inches of snow before 9 a.m., while a foot fell in the state capital of Harrisburg and nearly 2
feet in the Pocono Mountains.

winters seem to be upside down now. January and February are and then March and April
seem to be more than they were in the past," said Bob Clifford, who ventured out on an early
morning grocery run for his family in Altamont, near Albany, New York.
His advice: "Just hide inside. Hibernate."
