Our wonderful little buddy

Last month my Daughter, Ashly to bring a Adjective German Shepherd home. He was	as
adog, but completely out of control. The dog went outside in the yard, and proceeded to bre	ak
through the fence. Well, he ended up running down the street with my family behind him. W	/e
finally caught him and put him in the house. While he was in the house the dog jumped up to the window,	
knocked down the blinds, and went through the screen and into the yard, through the fence a	ınc
back down the street. I finally caught up with him, and took him to the house. He finally settled down by my b	ec
and fell asleep, I guess he was all out by then. I knew we could not keep him, so I remember	ec
couple that had mentioned to me they were for a dog. I contacted them and	1
they took gladly took him. I was so to have found him a great home, and my cat and I are	
doing without him.
