How Much I Hate Red Hair

I don't know what gets me about it but something about ______ hair just ticks me off. It may just be

because of how it looks like some fried <u>Noun</u> or the fact of how its not natural and how

the hair just never looks <u>Adjective</u> / <u>Adverb</u> unless your a <u>Noun</u> but other then that i

don't like it. Its a nice color just not for hair. It also matters what type of face you have or the skin color.
