Sean Nyary's Email

I am very excited starting with _____. Although I have to say I think it is completely unnecessary to increase the cost of pbr to 3 on monday just for us. If anything cut cats members have been the most collected and responsible couriers to frequent hbar on mondays. Out of companies like snap and up top we have a reputation of being theory responsible when it comes to client relations, handling our work load, and interacting with other companies. I don't think we need a \$2 increase on pbr to ensure our professionalism with them. We are all adults and should know when enough is enough.
