Espionage

"Espionage" is the formal word for One. In the shadowy world of spies, a/an Two organization like the US government uses spies to infiltrate Three groups for the purpose of obtaining top secret Four. For example, spies might have to crack the code for accessing confidential, Five files, or their mission could be far more dangerous - like stealing the key ingredient for making Six's award-winning Explosive Fudgy Seven. Spies are found all over (the) Eight - but they are not allowed to reveal their Nine identities. A teacher, Ten, or even the little old Eleven with the cane and fifteen pet Twelve who lives next door to you could be a spy. The world of spying might seem glamorous and Thirteen - but it's filled with risks and Fourteen! Sure, spies have a never-ending supply of supercool electric Fifteen, but they can't trust any Sixteen - which is why the number one rule of spies is to keep friends close - and Seventeen closer!
