# Intro to [Your] Script Programming Language

\_\_\_\_\_ Main Noun Script, is a programming language that conforms to the \_\_\_\_\_ Standards Body Script specification. \_\_\_\_\_ Repeat Last Main Noun Script is high-level, often \_\_\_\_\_ Adjective compiled, and multi-paradigm. It has \_\_\_\_\_ Shape bracket syntax, \_\_\_\_\_ Adjective typing, \_\_\_\_\_ Noun based object-orientation, and \_\_\_\_\_ Number st class functions.

Alongside \_\_\_\_\_ Adjective \_\_\_\_\_ Noun Markup Language and \_\_\_\_\_ Adjective Style \_\_\_\_\_ Noun Plural, \_\_\_\_\_ Repeat Last Main Noun Script is one of the core technologies of the \_\_\_\_\_ Location Wide Web. \_\_\_\_\_ Repeat Last Main Noun Script enables interactive web pages and is an essential part of web applications. The vast majority of websites use it for \_\_\_\_\_ Location page behavior, and all major web browsers have a dedicated \_\_\_\_\_ Repeat Last Main Noun Script engine to execute it.

As a multi-paradigm language, \_\_\_\_\_ Repeat Last Main Noun Script supports event-driven, functional, and imperative programming styles. It has application programming interfaces for working with \_\_\_\_\_ Noun, \_\_\_\_\_ Noun Plural, \_\_\_\_\_ Adjective expressions, standard \_\_\_\_\_ Noun structures, and the \_\_\_\_\_ Noun Object Model. However, \_\_\_\_\_ Repeat Last Standards Body Script itself does not include any input/output, such as networking, storage, or \_\_\_\_\_ Noun Plural facilities, as the host environment (usually a web browser) provides those APIs.

\_\_\_\_\_ Repeat Last Main Noun Script engines were originally used only in web browsers, but they are now embedded in some servers, usually via \_\_\_\_\_ Technology Noun. They are also embedded in a variety of applications created with frameworks such as \_\_\_\_\_ Technology Noun and \_\_\_\_\_ Technology Noun.

Although there are similarities between \_\_\_\_\_ Repeat Last Main Noun Script and \_\_\_\_\_ Repeat Last Main Noun, including language name, syntax, and respective standard libraries, the two languages are distinct and differ greatly in design.
