Intro to [Your] Script Programming Language

Script, is a programming language that conforms to theStandards BodyScript
specification. Repeat Last Main Noun Script is high-level, often Adjective compiled, and multi-
paradigm. It has bracket syntax, typing, based object-orientation
, and st class functions.
Alongside Adjective Noun Markup Language and Adjective Style Noun Plural,
Repeat Last Main Noun Script is one of the core technologies of the Location Wide Web.
Repeat Last Main Noun Script enables interactive web pages and is an essential part of web applications. The
vast majority of websites use it for page behavior, and all major web browsers have a dedicate
Repeat Last Main Noun Script engine to execute it.
As a multi-paradigm language,
Repeat Last Main Noun Script engines were originally used only in web browsers, but they are now embedded
in some servers, usually via Technology Noun They are also embedded in a variety of applications created
with frameworks such as technology Noun and technology Noun
Although there are similarities between Repeat Last Main Noun Script and Repeat Last Main Noun,
including language name, syntax, and respective standard libraries, the two languages are distinct and differ
greatly in design.
