The date

met _____^{First name}_____ for their date. He had planned for a simple movie but Megan had something else planned.

The movie went well and they had had their usual make-out session. When Blaine took her home, Megan asked him in. She led him up her room.

'So what's this about,' Blaine asked. 'I want you to touch me.' Came megans reply as she lay down on the bed.

Blaine did the same and turned over to face her. He kissed her as his hands went to her breasts and massaged them through the clothes. He took off her shirt revealing her absence of a bra. He smiled and began to massage them again, this time toying with the nipples. Her moans of pleasure began to grow louder as he moved as his mouth began to play with her breasts. He continued until she climaxed in her pants. He knelt down and pulled down her pants and began to rub her clitoris through her panties.

She began to moan but pulled his hands away.

'Wait. I'm going to do something.' She said as she pushed him down and took off his pants and boxers. She gasped as all 10 inches of him popped out. She took it in her hands and began to stroke it. She lowered her head slowly and began to lick it. Blaine started moaning. She took it in her mouth and began depthroating him. 'Oh my God Megan! It feels so good! I'm going to cum!' She took her mouth off and began stroking it again. He ejaculated on her face. She took her hand and wiped some of it off and licked it off her hand. 'mmhmmmm.' She moaned.

Blaine put her back down and began toying her clit through her panties again before fingering her. As her moans increased, he could feel the fabric of her panties wetten until she climaxed. He pulled his fingers out, leaving some of the panties still in. He pulled them down slowly, causing her to moan with pleasure as the panties slid out of her vagina. He began to rub her clit again and he moved his fingers down slowly, his mouth replacing them, as he started fingering her. As she climaxed, he began licking her juices as they flowed out.

She gasped, 'More!' as they began to stop. His fingers began toying her clit again as his tounge dashed across the surface of her vagina. He began teasing it, begining to stick his tounge in, only to pull it out immediatly. He did that a few times before sticking it all the way in. She gasped. 'My god Blaine! It's so good!'

He began thrusting his tounge in and out, swishing it inside, moving all around in her vagina. He moved his hands up to her breasts and toyed with her nipples, while using his nose to rub her clit. Her juices began flowing past his tounge and he sucked them up. Her moans of pleasure only increased his excitement. She got up off the bed and he sat up, his penis standing completely erect. She went over to his side and pushed him down. She got on top of him, his member gazing up at her mouth. She took her breasts and began to rub them up and down his penis. She took the head of his penis in her mouth and began sucking while her tounge danced across the tip and her breasts going up and down. Blaine seized his oppertunity and spread her lips apart. She was still wet from her

previous orgasms. She gasped as his tongue began to toy her clit again. He moved up and began to thrust his tongue in, his fingers keeping her clit busy.

She stifled her moans by sucking on his penis. She began to orgasm around his tongue, and she was unable to continue sucking. She arched her back in pleasure and continued stroking as he ejaculated across her chest.

She rolled off Blaine and lay there, gasping. She licked what she could off her chest and got the rest with her shirt. He picked her up and sat her down on his lap, his penis laying across her vagina. She grasped his thighs as he rubbed her cunt over the back of his penis. She began to orgasm over his penis and he ejaculated on to her stomach. He waited until her gasps began to slow before he picked her up a bit and positioned his member below her vagina. He lowered her slowly, causing her to gasp as his penis entered her.

'Oh my god Blaine! It feels so good!' She moaned. 'I know Megan. Now, Let's make it feel even better.' Came his reply. He lowered her some more, she biting her lip as it pushed into her more, until she was sitting on his lap again. His hands grasped her breasts and began to massage them and toy with her nipples as he began to thrust up. She gasped as it went deeper into her, and coming back down. She began to orgasm as he thrust. She was moaning and gasping with pleasure as he continued thrusting. She was at her 2nd orgasm when he suddenly pulled out and ejaculated on to her chest and stomach. She collapsed in his arms.

'More,' was all she could say between her gasps. He lay her on her side and entered her again, her moans of excitement

heightening both of their pleasure. As he thrust deep inside her, her juices began to flow across his member. He ejaculated inside her, as her juices were flowing. They lay there moaning as he pulled his member out, leaving it to rest against her vagina. They fell asleep like that, Blaine thinking it was the best date ever.
