# Sex

While its primary purpose is the reproduction and continued survival of the \_\_\_\_\_<sup>Noun</sup> species, sex is often performed \_\_\_\_\_<sup>Adverb</sup> for pleasure or as an expression of love and emotional intimacy. Sexual intercourse typically plays a powerful bonding role; in many societies it is normal for \_\_\_\_\_<sup>Plural noun</sup> to have frequent intercourse while using birth control, sharing pleasure and strengthening their \_\_\_\_\_<sup>Adjective</sup> \_\_\_\_\_<sup>Plural noun</sup> through sex even though they are deliberately avoiding pregnancy.

Oral sex consists of all the sexual activities that involve the use of the mouth, tongue, and possibly \_\_\_\_\_<sup>Noun</sup> to \_\_\_\_\_<sup>Verb</sup> genitalia. It is sometimes performed to the exclusion of all other forms of sexual activity.
