Letter from Mathematician to Mathematician

Dear Name of a person

I have been thinking about a very tricky mathematic Noun and I was wondering if you could help me.

The formula is Number ^ Number / Number x ^ Number / x =

 Mathematical expression (ex. sqrt sine) (x) + y ^ Number .

This may seem Adjective to you, but I was never Adjective at Class . I am sure that you

can solve this Adjective Noun . If you cannot, then I will ask my Description of person

 (doctor model etc.) to solve it, but Pronoun hardly expect it to come to that.

Please Verb in haste.

Sincerely,

Name of a person
