Michael Kors: She looks like a Adjective Noun coming home late from a Noun with Number of her Adjective friends.

Nina: I mean who would wear this Noun out in public. This poor girl looks like she just got done Verb ending in ing with a Animal.

Heidi: I don't know, I kind of love it. I would definitely wear this on the Adjective carpet. My favorite part is how they incorporated the Plural noun on the top and accessorized it with the Plural noun.
