Becoming a Good Teacher

It used to be that being a good _____^{Noun} meant you simply had to be a/n _____^{Adjective} person. If you were willing to Verb your community, be attentive to both your spouse and _____^{Plural noun} and be a/n _____^{Adjective} employee, you certainly would have qualified as a good teacher.

But honestly, when classroom effectiveness is judged by the teachers own _____^{Adjective} characteristics, and not measured by _____^{Noun} achievement, how would we know if a teacher is really getting the job done?

Student performance is both _____^{Adjective} and critical to assessing current teaching methods.
