7. My His Her
8. Adjective

my bff

friend kiki is the Adjective although Adjective some times shes still a great Noun. I

remeber her like it was Number years ago. cause thats how old i am. She told me how she had a crush on

First name. still i told My his her and now because they like each other so much she barley spends

time with me now. but still she has time to play with her Adjective bud.
