# Penguin Mating Habits

Some penguins mate for life, others for just one season. They generally raise a small Noun and the parents cooperate in caring for the Noun and for the young. During the cold season on the other hand the mates separate for Number months to protect the Noun. The male stays with the egg and keeps it warm, and the female goes out to sea and finds Plural noun so that when it comes home, the baby will have Plural noun to Verb. Once the female comes back, they switch. When mothers lose a chick, they sometimes attempt to 'steal' another mother's Noun usually unsuccessfully as other females in the vicinity assist the defending mother in Verb ending in ing her chick. As the young grow, they assemble in large groups called Plural noun in some species, such as Name of a person Penguins.
